Propensity and Influencer support

- Over the past year, propensity has fallen significantly in almost all categories
  - Hispanics are the fastest growing market, yet propensity is moving in the wrong direction

- Influencers of youth (Dads, Moms, and Grandparents) are less likely to recommend military service than at any point since 2003
  - The drop has been most significant among fathers and grandfathers.

Influencer's Role …

- Navy Recruiting success is due to the support we receive from citizens who influence young Americans, i.e., parents, siblings, educators, veterans, youth workers and various Friends of the Navy (FON) organizations such as the Navy League, Fleet Reserve Association and Navy Club of the USA. Centers of Influence (COIs), essentially each of you, are vital to the future of our Navy.

- Education, war, and a shrinking veterans pool are some of the major concerns of today's influencers.

What can you, as an influencer, -- do to help?

- Talk to everyone. Share your knowledge and experience with students, peers and local organizations.

- Contact a local recruiter in your area and offer your assistance.
  - Invaluable resource
  - Listen, Learn and Lead

Ready for the Challenge …

- Navy Recruiting stands ready to meet the challenges of the future.
- Communication is key.
- “Influencer” help = Recruiting success.
